Notes:

¹ Data for January 2013 are preliminary.

Figures may not add up to totals due to rounding.

Note to Readers:

Please note that the percentage changes are calculated using unrounded sales figures. Readers should also be aware that the percentage change figures for Nunavut are a reflection of the relatively small volumes of retail sales. If they were to continue to increase over a number of reporting periods and /or remain at a higher level, that would be an indication of increased economic activity.
